COLLECTION **DESIGN** DE MATHYS

SABLE

SAND EFFECT • TRADITIONAL EFFECTS FOR A MODERN INTERIOR

## traditional effects for a modern interior

Be inspired by Cachemire® Sable, a new velvety matt interior wall paint with fine sand structure, suitable for all spaces in any living style. With Cachemire® Sable you create a decorative sand effect that gives all your walls a warm, traditional yet contemporary feel.

Cachemire® Sable creates soft gradations with the relief of nature. Cachemire® Sable masks slight unevennesses by covering with a finely textured layer with depth and a tactile aspect. The natural, earthy look also evokes the organic tints of stone and sand.

### cachemire® TIP

Use Cachemire® Sable Primer as bonding layer for an even end-result. Recommended for powdery or porous surfaces and surfaces painted in dark colours.

Cachemire® Sable Finish is a transparent varnish that gives extra protection for the decorative sand structure. It is washable, scratch-proof and hard-wearing.

Cachemire® Sable - A003 ciel de brume

# welcome in the cachemire® universe

Discover also our Cachemire® Beton & Metallic range at your Mathys-Cachemire®-distributor.
