COLLECTION **DESIGN** DE MATHYS

METALLIC

METALLIC EFFECT • A VEIL OF SPARKLE

a veil of sparkle

Cachemire® Metallic is a range of water-based metallic paints of high quality. Made with real metal powders, Cachemire® Metallic adds a bright, rich sheen finish to any surface. Ideal for small surfaces, accent walls or accessories. Cachemire® Metallic is available in a transparent Metallic Finish and 4 lustrous colours.

Metallics are being used as colour and it's a trendy finish today. Cachemire® Metallic also offers **4 metallic colours**: Silver, Antique Gold, Pewter and Bronze. They add a rich and elegant metallic finish.

Create a new accent wall or add a metallic touch with **Cachemire® Metallic Finish**. This water-based varnish, infused with metallic particles, reflects light and instantly creates a rich shimmering metallic finish. Tiny specks of reflective metallic material in the finish catch the light, adding a whimsical twinkle to rooms or painted walls. It can be applied as a transparent topcoat over any surface painted with Cachemire® Mat Intense, Mat Velours, Sable or Beton.

cachemire®

TIP

Be creative and add glimmering metallic details to walls, ceilings, fixtures, frames, mouldings and trims, furniture and home accessories.

BRONZE • CM01

ANTIQUÉ GOLD • CM02

SILVER • CM03
